

# 120kW Outdoor Energy Storage Unit for Office Buildings

## 120kW Outdoor Energy Storage Unit for Office Buildings

---

### [100kWh / 120kWh Commercial & Industrial Solar Battery Energy Storage](#)

The 100/120kWh air-cooled solar + storage all-in-one cabinet is designed for commercial and industrial parks, small solar power plants, solar + storage + EV charging sites, community microgrids, and off

### **24-60kW 48-120kWh Modular Battery Storage System**

The AceOn Stack 24-60kW 48-120kWh modular battery storage system is fully integrated with a 3 phase inverter that can operate on or off grid, up to 10 battery storage modules and an energy management

### [120kWh Micro-grid Air-cooled ESS , All-in-One C&I Battery Energy](#)

Ideal for deployment in industrial parks, supermarkets, hotels, office buildings, data centers, and solar charging stations, this high-efficiency energy storage solution enables users to reduce electricity

### **Advanced Outdoor Energy Cabinet with Built-in Safety , 50kW /**

This is a DC-coupled or AC-coupled compatible energy storage system. It can be seamlessly integrated with both new and existing commercial solar installations, storing excess solar energy produced

### **Why the 120kW Mobile Energy Storage Power Station is**

a rugged, wheeled powerhouse that can silently juice up an entire outdoor concert, rescue a blackout-stricken hospital, or keep a remote construction site humming for hours. Meet the 120kW mobile

### [120KWH commercial energy storage system\\_Lithium Battery Storage](#)

Peak shaving and valley filling: by charging and storing energy at valley time and discharging energy at peak time, the electricity cost of customers can be reduced and the electricity charge at the power

### **215kWh +120kW High Voltage Integrated Energy Storage Cabinet**

Featuring 215kWh of LiFePO4 storage and a 120kW PCS, this system is engineered for industrial parks and commercial complexes that require high-power energy management.

### **ESS-GRID C241-X120 120kW 241kWh Solar-Powered EV Charging**

Integrates solar generation, battery storage, and DC fast charging in one compact unit. Saves installation space, supports on/off-grid operation, and fits areas with limited power access or high

### **120KW/225KW Battery Energy Storage Systems**

This system provides a 120kW sustained power output and a battery capacity of up to 225kWh, easily meeting the demands of most high-load

applications like factories, commercial buildings,  
or large

### **LFP energy storage system**

The ICB series battery energy storage system is specifically designed for commercial and industrial (C&I) energy storage applications, including EV charging infrastructure.
