

13kW grid-connected inverter

13kW grid-connected inverter

Verified Supplier Inverter 13kW IP66 Waterproof Protection

Choosing the right type of 13kW inverter depends on your energy goals, grid availability, and whether you want battery backup. Below is a detailed breakdown of the most common types available today.

[SMA Sunny TriPower X 13kW Grid-Tie 3-Phase Inverter for 120-208V](#)

Sunny Tripower X is the new innovative inverter solution for commercial PV systems. Specially designed for the 120 V/208 V grid in the US and Canada. Providing three MPP trackers with SMA ShadeFix

EG4(R) FlexBOSS18

The EG4 FlexBOSS18 is a powerful and cost-effective hybrid inverter. With 13kW continuous output, up to 18kW solar input utilization, and 10kW battery-only output, it delivers exceptional performance for

Hybrid Inverter , Split Phase Inverter US 13K

The GEN-LB-US 13K hybrid inverter is designed to deliver seamless solar integration and battery backup for North American homes. With 120/240V split-phase output, this model supports grid-tied,

13kw Solar Power System

The 13kw inverters are available in single phase and three phase outputs, as well as in grid-connected, off-grid and hybrid versions. The choice will depend on whether you need to feed current into the mains.

EG4 FlexBOSS18 Hybrid Inverter , 13kW 48V Split Phase

Not only does it offer 13kW of continuous AC output, but it also supports up to 18kW of solar panel input. This inverter operates on a 48V battery system and delivers 120V/240V split-phase power.

13KW w/8A Enphase MicroInverter Grid Tie Kit

This chip is built in advanced 55 nm technology with high-speed digital logic and has super-fast response times to changing loads and grid events, alleviating constraints on battery sizing for home

EG4 FlexBOSS18 13kW Hybrid Inverter 48V

Designed to maximize efficiency and savings, this inverter offers 13kW continuous output (with PV), 18kW maximum solar input, and 10kW battery-only output capability.

[SMA Sunny Tripower X 13-US 13kW 3-Phase String Inverter - 208V](#)

SMA Sunny Tripower X 13-US 208VAC inverter delivers efficient, reliable three-phase power for commercial solar systems with advanced monitoring and smart energy management.

[13kW Off-Grid Kit with 30.72kWh Battery - Energy Systems Central](#)

The kit contains all components required for a complete off-grid hybrid solar system: inverters, six lithium batteries, busbars, and wiring sets for efficient and organized integration.
