

# 28V high power inverter

---

## 28V high power inverter

---

### **DC to AC Inverter , 28VDC to 115VAC, 60Hz 500 watt, FAA TSO**

This DC to AC power inverter provides a 500 watt, 115 VAC pure sine wave output from a 28 volt input. This FAA TSO approved power supply can boast of military quality circuitry that features 2% total

### **Military Grade Power Inverter , MINV-4000-1U-28 , SynQor**

SynQor's MINV "Field-Rugged" family of rack-mount products incorporates field proven high efficiency designs and rugged packaging technologies. This MINV will accept a DC input voltage while

### **Rugged DC-AC Military Power Inverter**

Our rugged inverter is designed to meet rigorous military standards for EMC, vibration, and temperature extremes, ensuring reliable performance in the toughest conditions.

### **28V DC Inverter**

Shop high-quality 28v dc inverters for reliable power conversion. Perfect for cars, homes, and solar systems. Enjoy pure sine wave inverters and robust performance.

### **Y&H 500W Grid Tie Inverter DC16V-28V MPPT Pure Sine Wave**

Y&H Grid-tied inverter maximizes the output of photovoltaic solar energy from solar modules and converts it for use in everyday applications through the power utility grid

### **Rugged Pure Sinewave DC-AC Inverters**

These Rugged Pure Sinewave DC-AC Inverter Systems are available in rack mount, freestanding or wall-mount NEMA cabinet, and custom enclosure configurations to suit applications with tight space

### [Military grade pure sine wave inverter, 2500 watts from PowerStream](#)

Suitable for operation with lead acid, sealed lead acid, lithium ion and lithium iron phosphate batteries. Isolated, can be used in positive or negative ground applications. Manufactured

### [Inverter 28 vdc to 115, 60hz 1,000 watts Inverters AC to DC Static Inverter](#)

The DC/AC inverter is a high reliability model that is mission ready and FAA TSO approved for airborne applications. Coming soon to the Lone Star Aviation Inverter family will be a 300 Watt model, and a

### [28V DC DC Converters , Electronic Components Distributor DigiKey](#)

These modules are used in distributed power architectures to efficiently step-down (buck) or

step-up (boost) voltages close to the load for improved efficiency.

## **MIL-PWR-VIC-28-2000**

The MIL-PWR-VIC Series™ is a ruggedized military compliant AC-DC & DC-DC high power system built for deployment and operations equipment. This series is available to all military, homeland
