

500kW South Korean Communication Power Supply Rack

500kW South Korean Communication Power Supply Rack

Rack Mount AC-DC Power Supplies

These are versatile power solutions that can be mounted on 19" rack systems and comes with an array of features including built in ORing and hot swap, PMBus(TM) and LAN options for communications and

Energy Storage

We are proud to offer a functional energy storage solution to a real-world problem that fulfills growing market demand and contributes to a zero-carbon future.

High Power

- o Modular power supply design for easy service
- o Efficient power combining matches gain and phase at ETM
- o Robust integrated rack designs for transportability
- o Built-in solid state pre-driver and gain

South Korea Rooftop Solar Mandate: Factory Requirements

The South Korea rooftop solar mandate establishes comprehensive installation requirements for industrial facilities through a structured regulatory approach. New factory

Data Center Power Distribution Unit Management

500kW Battery Energy Storage System

Each BESS container has either a 300kW or 500kW PCS system offering a complete, install ready energy storage system. All system systems are offered with either 400VAC or 480VAC 3 phase

Experience the ease of ViFlow rPDU installation, with its adaptability to any racks and space-saving efficiency. Opt for metered-type models with branch circuit breakers, LED current displays and

SY250K500DR-PD

A high-performance, 3-phase, modular, scalable, power protection solution with industry-leading efficiency, capacity, and performance for medium to large data centers and mission critical

UPS5000-E-(50-800k) Datasheet

Benefiting from high performance DSP and high speed communication technology, the UPS5000-E system achieves leading expandability and availability. Its high efficiency, high availability match the

500kW Battery Energy Storage System

We provide professional Lithium Battery, Solar Energy Storage Systems, Containerized ESS, Solar Power System Homes, Commercial and Industrial use, Distributors also. Solar Projects installation

E500 Series

Choose from 250kW up to 500kW total PCS power ratings and capacities ranging from 500kWh to 2200kWh. All-in-one design contains battery racks, PCS, EMS, HVAC, UPS, controls, networking,
