

Accelerate the promotion of new energy storage

◆ PRODUCT INFORMATION ◆

-  **BATTERY CAPACITY**
50kWh~500kWh
-  **DC VOLTAGE RANGE**
400V~1000V
-  **DEGREE OF PROTECTION**
IP54
-  **OPERATING TEMPERATURE RANGE**
-10~50°C

Accelerate the promotion of new energy storage

[China unveils 3-year action plan to boost new-type energy storage](#)

China on Friday unveiled an action plan to promote the development of new forms of energy storage between 2025 and 2027, amid efforts to support green energy transition and ensure

The development of new energy storage is accelerating.

We believe that after the implementation of the energy storage policy, the new energy storage will accelerate the promotion of entering the power trading market and expand its revenue

[Xiqing District, Tianjin: Accelerate the promotion and application of](#)

By 2025, the renewable energy substitution rate of urban buildings will reach 8%. Reference address: Xiqing District, Tianjin: Accelerate the promotion and application of new energy storage

[China to boost new-energy storage manufacturing industry, targeting](#)

China has unveiled an action plan to boost full-chain development of the new-energy storage manufacturing industry, aiming to expand leading enterprises by 2027, enhance innovation

Global Energy Storage Boom: Three Things to Know

Global energy storage additions are on track to set another record in 2025 with the two largest markets - China and US - overcoming adverse policy shifts and tariff turmoil.

Eight departments issue documents to promote high-quality

An action plan is issued, aiming to build a growth engine such as new generation information technology and new energy, and promote the high-quality development of new energy

China unveils measures to bolster new-type energy storage

Chinese authorities unveiled several measures on Monday to promote the new-type energy storage manufacturing sector, as part of efforts to accelerate the development of emerging

Energy Department Pioneers New Energy Storage Initiatives

The GSL is an energy storage research and testing facility that will accelerate development of next-generation grid energy storage technologies that are safer, more cost effective,

14th Five-Year Plan: New Energy Storage Development

This document identifies energy storage as a key element of the decarbonisation of the sector and support energy security. It promotes the high-

quality and large-scale development of new

CHINA'S ACCELERATING GROWTH IN NEW TYPE ENERGY

Local governments have also introduced a series of policies to promote the construction of new type energy storage in conjunction with new energy power generation.
