

Apartment installation of photovoltaic panels

**200kWh
Battery Cluster**

Overview

Yes, it is possible to install solar panels for apartments. Apartment solar is now mainstream in 2025 - With over 45 million renter households and innovative solutions like portable systems, community solar, and balcony installations, apartment dwellers no longer need traditional rooftops to access solar benefits. While traditional rooftop installations may not be an option, modern alternatives like plug-in solar devices, window-mounted panels . The simple answer for renters who want solar panels for their apartment or house is that it's possible! While you may be able to pitch your landlord to install a rooftop solar panel system, community solar is more likely to be your best bet to enjoy the benefits of solar if you don't own your roof . But you don't have to own a home with solar panels to tap into clean energy. However, if . We use Google Earth imagery to analyze your roof shape and local weather patterns to create a personalized solar plan. Compare loan, lease, and purchase options for your solar .
