

# Argentina s largest curtain wall solar project

ESS

## Overview

---

The Cauchari Solar Park is the highest-altitude and largest-capacity photovoltaic project in South America. On Oct 25, the 315 MW Cauchari Solar Park Phase I Project in Jujuy province, Argentina, financed by the China Export-Import Bank and built by POWERCHINA, was officially and finally signed over to the owner. 2 million solar panels, serving as a powerful symbol of the nation's green ambitions. Located in the Puna of Jujuy, the Cauchari plant has been equipped with more than 900 thousand solar panels that will occupy 600 hectares in the town of Susques, about 4200 meters above sea level. Construction on the . LatAm List - Cauchari, the site where China will build Latin America's largest solar plant in May, is located in the Argentine province of Jujuy. At its onset, the project consisted of three individual PV fields, the .

## Argentina s largest curtain wall solar project

---

### China is building Latin America's largest solar plant in

LatAm List - Cauchari, the site where China will build Latin America's largest solar plant in May, is located in the Argentine province of Jujuy.

### [Cauchari Solar Initiative Giving Argentina a Boost into Clean Energy](#)

As of 2020, the Cauchari project is set to expand by 200 MW, reaching a final installed capacity of 500 MW. The new projects, Cauchari IV and V, are hoping to find a cheaper MW/h rate

### China builds Latin America's largest solar plant

This is Cauchari, the site of Latin America's largest solar plant. Chinese technology and finance have enabled the project, which is part of Argentina's plan to boost renewable energy

### Cauchari Solar Park Phase I handed over in Argentina

The Cauchari Solar Park is the highest-altitude and largest-capacity photovoltaic project in South America. It is also the largest photovoltaic project completed by POWERCHINA in the Argentine
