The ground-breaking ceremonies for the Bilasuvar SPP with capacity of 445 MW and the 315 MW Neftchala SPP took place during the Baku Energy Week in June 2024. The plants are set to

The first solar panel installation ceremony was held at the 445-megawatt (MW) Bilasuvar Solar Power Plant. The plant will cover 1,400 hectares and is expected to host over 943,000 bifacial

New stage of solar energy project launched in Bilasuvar

After commissioning, the cleaning of the panels will be carried out automatically using special devices. The plant is scheduled to be put into operation next year.

Azerbaijan: Banka and Bilasuvar 760 MW Solar PV Power Project

The Bilasuvar Solar is located in the Bilasuvar district of the Shirvan-Salyan region in Azerbaijan, about 140 km south of Baku. The Project site covers one land plot of approximately 1,454

[Bilasuvar solar power plant to meet up to 5% of Azerbaijan's energy](#)

Spanning 1,454 hectares of state-owned land, the 445 MW plant will feature over 943,000 dual-sided solar panels manufactured by China's JA Solar, with a capacity of 625-630 W each.

Azerbaijan gives green light to 760 MW of solar

The installations include the 445 MW Bilasuvar PV project and the 315 MW Neftchala solar plant, both in southeastern Azerbaijan.
