

Barbados Portable Energy Storage Project

Overview

This first tranche of the competitive procurement process aims to deploy 60 MW (240MWh) of new Battery Energy Storage Systems (BESS) in Barbados, aiming to unlock renewable energy (RE) access to the grid, improve grid stability, allow better demand management, and mitigate supply . This first tranche of the competitive procurement process aims to deploy 60 MW (240MWh) of new Battery Energy Storage Systems (BESS) in Barbados, aiming to unlock renewable energy (RE) access to the grid, improve grid stability, allow better demand management, and mitigate supply . Barbados is a step closer to launching its first procurement project for Battery Energy Storage Systems to support the grid and unlock stalled Solar PV connections. The Ministry of Energy and Business is currently hosting a three-day Procurement Design Workshop with key stakeholders to discuss and . With the 60MW/240MWh national BESS tender officially concluding on March 6, 2026, the market now shifts from planning to execution, creating unprecedented opportunities for developers, industrial energy users, and commercial property owners. Barbados' Integrated Resource and . Barbados is moving forward with its national energy policy and resiliency plan, with an RFP for up to 60 MW of battery energy storage systems (BESS) set to be issued by the end of the month, according to Energy Minister Lisa Cummins. This will support the electricity grid and will allow the stalled solar photo voltaic (PV) systems to proceed. Barbados is soon to launch its first project for the installation of Battery Energy .

Barbados Portable Energy Storage Project

Battery energy storage systems coming to Barbados

Barbados is a step closer to launching its first procurement project for Battery Energy Storage Systems to support the grid and unlock stalled Solar PV connections.

[Barbados Energy Storage Market Report 2026 Your Complete Guide](#)

As of March 30, 2026, Barbados stands at a pivotal crossroads in its clean energy transition. The island nation-historically dependent on imported fossil fuels-has just closed the most significant

[Barbados , Strong Interest In Investing In Battery Energy Storage](#)

Senior Technical Officer in the Ministry of Energy and Business, Destine Gay, says there is strong interest from the market in investing in Barbados' battery energy storage.

Barbados to launch its first Battery Energy Storage System

Barbados is soon to launch its first project for the installation of Battery Energy Storage System. This will support the electricity grid and will allow the stalled solar photo voltaic (PV) systems

[Govt advances renewable energy drive with grid storage projects](#)

[Barbados to launch 60 MW battery storage and onshore wind project](#)

Barbados is moving forward with its national energy policy and resiliency plan, with an RFP for up to 60 MW of battery energy storage systems (BESS) set to be issued by the end of the

The government's drive to upgrade the national grid and accelerate the shift to renewable energy are gathering pace, a senior official said on Friday, with new large-scale battery storage

[RELP And The Government Of Barbados Partner To Accelerate Energy](#)

Brussels, Belgium - RELP and the Government of Barbados have signed a Cooperation Agreement to promote and deploy Battery Energy Storage Systems (BESS) at scale in the country.

Battery Energy Storage System (BESS) in Barbados

Successful bidders will get a Storage Licence granted by the MEB and enter into a long-term ESAG with the Barbados Light and Power Company, the private-owned national utility. The award process

Barbados Launches Groundbreaking Battery Storage Tender

The Government of Barbados has officially launched a major procurement process for the country's first large-scale Battery Energy Storage Systems (BESS), aimed at transforming the national electricity

HOME , Blue Circle Energy

Blue Circle Energy has over 50 renewable energy sites under development in Barbados, ranging in size from 250kW to 5MW. The project sites are distributed throughout the island, are located in each of
