

# Base station energy storage products

## Overview

---

These include simplified PV + home storage all-in-one systems, portable home energy storage power banks, and LFP-based home storage batteries, often available in power ratings ranging from several hundred watts to several kilowatts. Highjoule offers professional Base Station Energy Storage Products, which ensure that telecommunication infrastructures will have reliable backup power during an outage or peak demand periods. In the case of unstable power supply or sudden power outage, it can provide continuous and stable power to the base station to ensure the continuous transmission of communication signals . Build an energy storage lithium battery platform to help achieve carbon neutrality. Consider this: A single base station serving 5,000 users consumes 3-5 kW daily.
