

# Battery cabinet height 30

## Overview

---

Overall dimensions measure 22" wide by 10" high by 8 1/2" deep or 30" wide by 10" high by 8 1/2" deep. Four 1/2" and 3/4" EMT conduit knockouts are included. The battery cabinet meets NFPA 72 (1-5. 9) and National Electric Code requirements. The dimensions of the cabinets are the outside dimensions, so it is important to take into account the thickness of the material and body stiffeners that are attached to the sides and back of the cabinet for support, fans that take up internal length, etc. Minimum cabinet height = Rack height (to . The BCA Battery Cabinet is constructed of 16 gauge cold rolled steel and finished with a complete interior and exterior durable red or black powder coat. We have rounded up to the nearest half foot for the simplest dimensions. Engineered for use with most type of battery terminal models, these cabinets can fit a wide variety of applications. The construction characteristics of the recombination type lead-acid electric accumulators (valve-regulated hermetic accumulators); the absence of acid fumes and .
