

# Battery cabinet service available

## Overview

---

Explore our range of lithium-ion cabinets, meticulously engineered with cutting-edge fireproof battery storage technology, ensuring a secure and reliable solution for energy storage. Looking for a larger solution?

We offer custom solutions for storing and handling hazardous . The UBC Series is our revolutionary new front access battery cabinet line. These cabinets come with our patented, tiered shelf design - a unique feature that allows for effortless system maintenance and installs. These systems charge the battery with electricity from an external source, such as the grid or solar panels. The stored energy is automatically delivered to your home when the power goes . At Mitsubishi Electric, we have the products and expertise to guide you through battery and battery cabinet/rack decisions to promote the life and advancement of your backup power system. This easy to install cabinet adds one or two 48 Volt battery strings and up to . Most industrial off-grid solar power systems, such as those used in the oil & gas patch and in traffic control systems, use a battery or multiple batteries that need a place to live, sheltered from the elements and kept dry and secure.
