

Battery hybrid energy storage in Cebu Philippines

Overview

Considered one of the first large-scale energy storage systems in Central Visayas, the hybrid BESS will provide ancillary services by storing surplus electricity and releasing it to the grid when needed to help stabilize power supply. Integrated energy utility Aboitiz Power has kicked off a 30MW hybrid battery energy storage system (BESS) project in the Philippines. The company said on Wednesday (16 July) that construction will begin imminently on the BESS asset. It will be integrated into an existing operational thermal power . Aboitiz Power Corp. , through subsidiary East Asia Utilities Corp. is building a 30-megawatt hybrid battery energy storage system (BESS) project within the Mactan . Aboitiz Power Corporation (AboitizPower), through its subsidiary East Asia Utilities Corporation (EAUC), is set to construct a 30-megawatt (MW) hybrid Battery Energy Storage System (BESS) within the Mactan Economic Zone, reinforcing efforts to improve grid reliability in the Visayas region.
