

Bhutan grid-side independent energy storage project

Overview

Nestled in the Himalayas, the Thimphu energy storage project is a cornerstone of Bhutan's renewable energy strategy. Situated near the capital city of Thimphu, this initiative aims to stabilize the national grid while supporting the country's ambitious carbon-neutral . Bhutan is entering a new era of clean energy with major commitments from Adani, Reliance, and Tata to develop large-scale hydro and solar projects across the kingdom. The combined ventures - including Adani's 570 MW Wangchhu, Tata's 600 MW Kholongchhu, and Reliance's 500 MW solar farm - are set to . With hydropower providing 80% of its electricity, Thimphu's facing a modern dilemma: how to store surplus monsoon energy for dry winters. But wait, isn't Bhutan already ca Lenercom . At the Invest Bhutan Summit, the Druk Holding and Investments (DHI) submitted a proposal for the development of a 25 MW-100 MW grid-scale Battery Energy Storage System (BESS), aimed at strengthening grid stability and meeting Bhutan's growing electricity demand. The project proposes storing . Considering our current expertise, we need to enhance the installed capacity of hydropower by expediting the construction of projects such as Khorlochu, Chamkharchu, Dorjilung, Nyera Amari, Wangchu, Bunakha and Sunkosh, for which Detailed Project Reports are ready. Titled "Empowering Energy Security & Sustainable Growth," the policy consolidates and supersedes several prior .
