

# Bulgaria Healthy Energy Storage Project

## Overview

---

Bulgaria's Ministry of Energy has approved grant funding for 31 battery energy storage system (BESS) projects totaling more than 4 GWh, under the second round of the National Renewable Energy Storage Infrastructure (RESTORE 2) program, part of the country's National . Bulgaria's Ministry of Energy has approved grant funding for 31 battery energy storage system (BESS) projects totaling more than 4 GWh, under the second round of the National Renewable Energy Storage Infrastructure (RESTORE 2) program, part of the country's National . Energy has secured a green financing package from DSK Bank AD for its flagship 600 MWh battery energy storage system (BESS) in Nova Zagora, Bulgaria. The transaction marks one of the country's most advanced storage financing deals to date, supporting Bulgaria's transition toward a more flexible and . Bulgaria's second standalone energy storage procurement exercise of 2025, worth close to BGN 229 million (\$137. 2 million), received a lot of interest and there are 30 project proposals included in a reserve list, the government said. 15 billion levs (\$675 million) under its . Industry leader EK SOLAR recently commissioned a 20MW/40MWh system paired with a solar farm near Plovdiv. The numbers speak volumes: Future Outlook: What's Next for Bulgarian Storage?

Market analysts predict 400% growth in installed capacity by 2030.

## Bulgaria Healthy Energy Storage Project

---

### [Bulgarian tender awards more than 4 GWh of energy storage capacity](#)

The 31 projects will create more than 4 GWh in usable energy storage capacity, the Ministry said.

### **Battery energy storage systems The case of Bulgaria: recent**

Have a technical advisor with previous experience in either a combined project for production and storage or standalone storage project with capacity of at least 20 MW;

### [Major Energy Storage Projects in Bulgaria: Powering a Sustainable](#)

With 24% of electricity from renewables in 2023 (Energy Ministry data), the country needs robust storage solutions like battery systems and pumped hydro to prevent renewable energy from going to waste.

### [Bulgaria Commits EUR600 Million to Nearly 10GWh in Energy Storage](#)

Bulgaria's Ministry of Energy has approved EUR588 million in funding for 82 standalone battery energy storage projects, totaling nearly 9.7GWh of usable capacity. The final decision,

## Energy Storage in Bulgaria Surges

### [Bulgaria grants EUR 587 million to 82 battery storage projects](#)

Developers of 82 standalone battery storage projects in Bulgaria, for an overall 9.71 GWh in capacity, got approval for EUR 587 million in subsidies from the Ministry of Energy. Another 30

### **with 9.7 GWh**

Bulgaria is taking bold steps toward a greener energy future, having recently wrapped up its most ambitious energy storage tender to date.

### **Bulgarian tender awards nearly 10 GWh of energy storage**

The RESTORE tender is funded under Bulgaria's National Recovery and Resilience Plan (NRRP), which aims to significantly increase the share of energy from renewable sources in the

### **Bulgaria Approves 4GWh Battery Storage Under RESTORE 2**

The 31 approved projects, launched by 25 companies, will be distributed across multiple locations in Bulgaria and connected either to the national electricity transmission network operated

### **Bulgaria Doubles Down on Storage: RESTORE 2 Launches A 1.9**

Bulgaria has kicked off a public consultation for RESTORE 2, a new subsidy round that target 1.9 GWh of standalone battery energy storage systems (BESS).

## [Energy Secures Green Financing for 600 MWh Battery Storage Project](#)

The transaction marks one of the country's most advanced storage financing deals to date, supporting Bulgaria's transition toward a more flexible and renewable-powered energy system.
