

# Can solar container360w be used as an solar container outdoor power

## Overview

---

Yes, a shipping container can be fully powered by solar energy, especially when equipped with a sufficient battery bank and properly sized solar array. Off-grid systems are capable of running lights, tools, computers, and even climate control systems depending on the configuration. When the grid is hundreds of feet away (or non-existent), a self-contained power solution is ideal. For instance, specialized units like the LZY-MSC1 Sliding Mobile . The Solarcontainer represents a grid-independent solution as a mobile solar plant. That seemed like a great idea to put to use for all of my electric "toys".
