

China Nuclear solar inverter Bidding

Overview

CNNC has published a tender notice for its annual PV-inverter procurement round. The bidding process for 2024 will be segmented into three categories, focusing on central inverters, string inverters, and residential string inverters, with an estimated total procurement of 1 GW. China National Nuclear Corp. (CNNC), a Chinese state-owned nuclear producer, has revealed plans to procure 1 GW of inverters, while Mubon High-Tech said it may scrap its plans to build a 5 GW heterojunction solar cell factory in China's Anhui province.

CNNC has published a tender notice for its . New Energy> CNNC's 1GW photovoltaic inverter centralized procurement: 9 companies including KSTAR, Kehua, Hopewind, Sineng, GoodWe, Zhuzhou Converter, and Shouhang won the bid! CNNC's 1GW photovoltaic inverter centralized procurement: 9 companies including KSTAR, Kehua, Hopewind, Sineng, GoodWe . On April 25, the winning candidates for the China National Nuclear Corporation's (CNNC) 2025-2026 centralized procurement project for Tier 1 PV module equipment and the CNNC's 2025-2027 centralized procurement project for Tier 1 inverter equipment were announced. Image: Jinko Solar Opening bids for the largest centralised procurement tender in China's PV history have come in, with 51GW each of PV modules and inverters on the table.

China Nuclear solar inverter Bidding

CNNC's 1GW photovoltaic inverter centralized procurement: 9

International Energy Network learned that on April 7, the results of the China National Nuclear Corporation's 2024 photovoltaic inverter primary centralized procurement project were
