

# Containerized liquid cooling energy storage product EnerC

## Containerized liquid cooling energy storage product EnerC

---

### **Ener+ 306 ontainer Product Specification**

Energy Storage System developed by CATL. It describes and stipulates the performance index, basic functions, interface and communication, key parameters, safety characteristics, this product, as well

### **Battery Energy Storage System From CATL**

Power packed: EnerC from CATL is a highly integrated storage solution that combines a liquid-cooled battery system, an UPS system, a fire suppression system, and a controller in one

### **CATL EnerC+ 4073.6 kWh industrial battery - SOLARKIT**

The CATL EnerC+ 4073.6 kWh is a high-performance, modular containerized energy storage system developed for industrial-scale applications such as grid balancing, frequency regulation, or increasing

### **EnerC Containerized Liquid Cooling Battery System**

.Integrated high-efficiency liquid-cooling system, with the temperature difference in the container limited to 5? .Modular design for the 1,500V system .Separate arrangement of electrical room and battery

### **CATL EnerC 0.5P Energy Storage Container**

### Liquid Cooling Containerized Energy Storage

EFFICIENT AND DURABLE Industry leading LFP cell technology up to 10,000 cycles with high thermal stability Liquid cooling capable for better efficiency and extended battery life cycle Higher energy

EnerC's liquid-cooled battery container: a high-density, integrated system with BMS, FSS, TMS, and auxiliary distribution

[CATL presents liquid-cooling CTP energy storage solutions at World](#)

CATL's EnerC, the world's first TEU containerized liquid cooling energy storage system, is able to achieve safe and reliable operation of the whole system for 20 years.

### Energy storage

Discover CATL's EnerC liquid-cooled system: an innovative, integrated storage solution with cutting-edge cooling technology.

[How CATL's Liquid-Cooling Innovation is Redefining Grid Stability in](#)

The technological heart of the plant is the CATL EnerC series, a containerized liquid-cooling BESS. With each unit boasting a capacity of 3.72 MWh, it represents one of the most
