

Darlington and solar power plant

Overview

Darlington Solar, LLC is a solar power plant with 10 MW of capacity located in Darlington, SC. The facility is currently operational and generating electricity. It is connected to the Southeast power grid. The BWRX-300 small modular reactor (SMR) provides 24/7 on-demand, low carbon power. Looking for solar projects still in . Making smart investments in our energy future is a priority for Duke Energy - one that focuses on delivering reliable, affordable service to the customers and communities we serve, and on transitioning to cleaner energy options and a lower carbon future. We're seeking approval to construct and . John Hancock Darlington Solar PV Park is a 14.
