

# Electric vehicles evs fiji

The image shows a house with solar panels on the roof. In the foreground, there is a mobile battery storage unit consisting of six stacked white battery packs on a metal frame with wheels. Each battery pack has a small digital display and a control panel. To the right of the battery unit, there are four circular icons in a 2x2 grid, each with a corresponding text description below it. The background is a light green gradient.

- 

easy to install and use
- 

World wide Products
- 

faster charging and discharging
- 

Multiple protection with alarm systems

**Can save energy**

the battery capacity can be increased freely and flexibly according to the situation of home use.

Rechargeable lithium batteries use safe LiFePO4

## Overview

---

The vehicles are designed for Fiji's mixed roads and tropical climate. Wuling offers compact, affordable, and reliable vehicles especially popular for their efficient mini EVs designed for practical, eco-friendly urban driving. Known for strong build . Fiji imports more than 40% of fossil fuels and spends a significant portion of its earnings on mineral fuel products. Transport is the biggest energy user and emitter of Greenhouse Gas (GHG) with the highest percentage compared to other sectors in Fiji. energy use in the transport sector . Help us roll out region wide! Ready to drive Green?

The SWITCH App allows you to access EV chargers across the country, displaying available chargers and then guiding you to them via the shortest route. This groundbreaking development sets the stage for future advancements in the electric vehicle (EV) sector and reinforces Fiji's commitment .
