

Energy storage photovoltaic 400 million

Overview

Chinese multinational Hithium is considering building a battery and energy storage systems manufacturing plant in Navarra, with an initial investment of around €400 million and the potential to create up to 1,050 jobs across two development phases. Shaw Renewable Investments (DESRI) after its acquisition from Avantus in 2024. The facility features a 205 MWac solar array paired with a massive 1,000 MWh battery energy storage system (BESS), designed to power . The US's largest solar + battery storage project, Edwards & Sanborn, has come online in Kern County, California. Edwards & Sanborn, which sits on 4,660 acres in the Mojave desert, was developed and is owned and operated by Terra-Gen. Terra-Gen and Mortenson have announced the activation of the Edwards & Sanborn Solar + Energy Storage project, the largest solar and storage project in the United States.
