

Energy storage project completion notice

Overview

The energy storage project will be carried out by a wholly owned subsidiary of Afcon and is expected to reach completion in the second half of 2026. Rosemary Solar, LLC proposes to construct, operate, maintain, and decommission the Rosemary Solar and Energy Storage System Complex in unincorporated Fresno County. The project would generate up to approximately 140 megawatts alternating current (MWac) and include energy storage capacity of up to 8 . The proposed project would include an up-to 250 megawatt (MW), 4-MW-hour (MWh) BESS facility, which means that at maximum capacity, the facility can potentially deliver up to 250 MW of power over a duration of 4 hours. In addition to the battery systems, the facility would include associated . (vi) Seller has paid Buyer for all amounts owing under this Agreement, if any, including Storage Facility Construction Delay and Storage Facility COD Delay Damages. Bulletins explain processes and outline requirements for various types of projects or services. To obtain a building permit, start at Building .
