

# Energy storage regulations lilongwe

## Overview

---

The newly revised Lilongwe PV energy storage policy introduces game-changing incentives for renewable energy adoption. Let's break down what this means for project developers, investors, and communities pushing for sustainable power solutions. Lilongwe, Malawi | 25th November 2024 — The Global Energy Alliance for People and Planet (GEAPP) and the Government of Malawi have officially launched the construction of a 20 MW battery energy storage system (BESS) at the Kanengo substation in Malawi's capital city, Lilongwe. This is GEAPP's first . Malawi's 20 megawatt Battery Energy Storage System (BESS) was launched in Lilongwe by the President of Malawi, His Excellency Dr Lazarus Chakwera. \* Expected to be completed by February 2026 to help mitigate blackouts by injecting stored energy into the national grid \* As first phase of . Malawi's capital is now home to a 48MW photovoltaic array paired with 32MWh battery storage - the country's first grid-scale hybrid energy solution. Think of it as a power bank for the city, storing sunshine during the day and releasing it when households need it most.
