

Energy storage system factory in Egypt

Overview

[The first energy storage factory in the Middle East has landed in Egypt] On January 13, 2026, according to foreign media reports, the Egyptian government signed agreements worth over \$1.8 billion with Norwegian renewable energy developer Scatec and Chinese energy . Spark Renewables specializes in renewable energy solutions, including solar energy and energy storage. This series of agreements is a key initiative for Egypt to expand its clean energy installed capacity and improve its new energy industry chain. The project was announced during a meeting in Cairo between Egyptian President Abdel Fattah al-Sissi and Sungrow . Egypt's Kemet has signed three agreements with Chinese companies over the last week, covering plans for a 5 GW solar cell complex, a 5 GWh battery energy storage factory and Egypt's first solar inverter factory. Egyptian company Kemet has signed a cooperation agreement with multiple Chinese majors .
