

Financing for Off-Grid Energy Storage Container Projects in Wastewater Treatment Plants

Financing for Off-Grid Energy Storage Container Projects in Wastew

Battery Energy Storage Financing Structures and Revenue

Financing structure options for standalone storage projects and hybrid solar plus storage projects. The pool of potential investors in these projects by allowing project owners to transfer qualifying tax

Project Financing and Energy Storage: Risks and Revenue

While lenders may need to undertake additional diligence before financing an energy storage project, the project finance market for energy storage has grown, and is expected to continue

Battery Storage Facility Financing

Our team will assess your project's eligibility for federal clean energy financing, recommend optimal capital structures, and connect you with lenders and investors experienced in battery storage project

[Wastewater Project Financing , Better Buildings & Better Plants Initiative](#)

The resources on this page provide information about common funding and financing options that offer alternatives to capital budgets that can result in more timely infrastructure

Financing Smart Grid and Energy Storage Projects

Water Infrastructure Finance and Innovation Act Program

Eligible public and private borrowers can finance a wide variety of wastewater, drinking water, stormwater, and other water quality improvement capital projects with WIFIA credit assistance.

Discover financing models for smart grid and energy storage, including partnerships, tax incentives, and performance-based contracts.

Funding Opportunities

The following summarizes key federal assistance programs that offer funding for water infrastructure, water treatment, water-energy efficiency, and co-digestion related projects.

[LIVE Webinar - Funding Opportunities for Energy Projects at CA](#)

We will showcase Napa Sanitation District (NapaSan), a large municipal wastewater district in California, and share how they successfully navigated and benefitted from these funding

[Battery Storage System Guidance for Water and Wastewater Utilities](#)

Battery energy storage systems (BESS) are increasingly being considered by water and wastewater utilities to capture the full energy potential of onsite distributed energy resources (DERs) and achieve

[Generac Securing DOE Funding to Support \\$100M Battery Microgrid](#)

Under the planned water infrastructure power project, microgrids using battery energy storage and managed by distributed energy resources management systems (DERS) would form virtual power
