

Free installation of photovoltaic panels for power generation

Overview

The federal government does not provide free solar panels, but many states and utilities offer incentives that can reduce the cost of going solar. You can install solar panels on your roof with no upfront cost by signing a lease or PPA or taking out a \$0-down loan. You don't own the system, but you do get to use the electricity it generates, typically at rates lower than what . Strategic Program Stacking Maximizes Benefits: Successful applicants can combine federal grants, state rebates, utility incentives, and tax credits to cover 70-90% of total system costs, making solar installations essentially free for qualified households. With over \$7 billion in federal funding .
