

Georgia Power Construction solar Panels

Overview

The new solar facilities, consisting of a total of 1,068 megawatts (MW), will be built and maintained by third-party companies that successfully bid projects in the CARES 2023 Request for Proposal (RFP), which was approved in the 2022 Integrated Resource Plan (IRP) Final Order. Georgia Power recently started construction on a new 260 megawatt (MW) battery energy storage system (BESS) in Jefferson County, Ga. just outside of the City of Wadley. The new Wadley BESS will help strengthen the grid and the area's growing renewable energy resources. By Mrinmoy Dey Georgia Power has announced that it has started . Following years of pushback from a utility that was "adamantly opposed" to community solar, Georgia Power agreed to work "in good faith" to enable a path forward for community solar and Solar for All.
