

# Government outdoor power price standards

## Overview

---

The Energy Policy and Conservation Act, as amended ("EPCA"), prescribes energy conservation standards for various consumer products and certain commercial and industrial equipment, including external power supplies ("EPSs"). Federal laws and requirements mandate that agencies purchase ENERGY STAR-qualified products or FEMP-designated products in all product categories covered by these programs and in any acquisition actions that are not specifically exempted by law. International energy information, including overviews, rankings, data, and analyses. Tools to customize searches, view specific data sets, study detailed documentation, and access time-series data. Come test out some of . Nationwide availability - They are the only nationally-available green power product, besides self-supply. Department of Energy ("DOE") to periodically . This chapter covers the Title 24 California Code of Regulations, Part 6 (the Energy Standards), requirements for nonresidential outdoor lighting design and installation, including controls.
