

Guinea-bissau switches to green electricity for solar sites

Overview

A large photovoltaic plant has been built in Guinea-Bissau by the European Union in collaboration with TESE, a Portuguese NGO. The facility is set to begin supplying electricity to Bolama Island as soon as it receives government authorisation, reports Lusa. Under the Solar Energy and Access to Electricity Development Project, the World Bank will assist Guinea-Bissau until 2030 and has already . AIC Green Energy Ltd, a Gambian-Turkish renewable energy company based in The Gambia has signed an MoU with the Ministry of Energy of Guinea-Bissau to develop a 10MW solar power plant in Guinea Bissau. The agreement was signed between Dr.
