This comprehensive kit provides all the essential components (excluding a GNSS receiver) to establish a robust and reliable RTK base station, giving you complete control over your precise positioning

what kind of power supplies do you guys use for base station

13.8v and 30a is fairly standard for a shack. That radio should run from 11.73v to 15.87v but at 12v and 5 amps, you'll probably put too much demand on that little power supply. I use a switching power

[Communication Power Supply GIE4805S for Base Stations 12-Month](#)
