

Has the price of JinkoSolar panels dropped recently

Overview

91 billion), a 33% sequential fall and a 39. The sequential decrease was due to lower module shipments, JinkoSolar said, while the YoY decline was "mainly due" to falling average selling price (ASP) of modules. SHANGRAO, China, November 17, 2025 - JinkoSolar Holding Co. ("JinkoSolar" or the "Company") (NYSE: JKS), one of the largest and most innovative solar module manufacturers in the world, today announced its unaudited financial results for the second quarter ended June 30, 2025 and third quarter . Chinese solar product maker JinkoSolar Holding Co Ltd (NYSE:JKS) saw its net profit and revenues tumble in 2024, largely hit by the imbalance between supply and demand in the global market that dragged down module selling prices. Measures how much net income or profit is generated as a percentage of revenue. A valuation method that multiplies the price of a company's stock by the total number of outstanding . In China's domestic market, their P-type monocrystalline modules like the JKM72HL4 series currently sell at ¥0. 68/watt for bulk orders over 19. But cross borders to Pakistan, and you'll find N-type bifacial models priced at PKR 33. 7 million in the first quarter of 2025 amid low product prices and "changes in international trade policies.
