

# Home energy storage investment status

## Home energy storage investment status

---

### Energy Storage Investments

Estimates indicate that global energy storage installations rose over 75% (measured by MWh) year over year in 2024 and are expected to go beyond the terawatt-hour mark before 2030.

### Energy Storage Market Size, Growth, Share & Industry Trends

Cost breakthroughs in lithium-iron-phosphate batteries, long-duration storage mandates in China, and the U.S. Inflation Reduction Act's standalone storage investment tax credit are driving

### US Energy Storage Monitor , Wood Mackenzie

We compile this information into this report, which is intended to provide the most comprehensive, timely analysis of energy storage in the US. The US Energy Storage Monitor is offered quarterly in two

### [Energy Storage Investment Projects: Key Opportunities and Market](#)

Summary: Explore the growing \$150B+ energy storage market through 2030. Learn why grid-scale projects, renewable integration, and EV infrastructure are driving returns. Discover actionable data

### US Energy Storage Monitor

## Energy Storage Market Report 2025 , StartUs Insights

The Energy Storage Market Report 2025 presents a detailed overview of firmographic trends, innovation intensity, and funding activity of the global energy storage sector.

Storage installations will grow just under 30% in 2024, but between 2025 and 2028 an annual average growth rate of 10% is expected as early-stage development constraints continue.

## Residential Energy Storage Market Report 2024-2030

As technology advances, customer-owned energy storage continues to become a more affordable and beneficial investment in energy savings for homeowners, contributing to the overall market growth.

## [US Energy Storage Installations Reach New Quarterly Record in Q2](#)

While early adopters continue leading in deployment, activity across the country shows clear demand for utility-scale energy storage as a solution to rising electricity prices and soaring

## [Residential battery storage skyrockets in record-setting 2024](#)

The US battery storage market set another record in 2024, according to a new report from the American Clean Power Association and Wood Mac.

## Energy Storage Reports and Data

The following resources provide information on a broad range of storage technologies.
