

Home use 3kW small solar generator

Overview

The world's lightest and smallest 3kWh power station, thanks to advanced cell-to-body (CTB) design, easier to move and store without sacrificing power. Delivers 3600W continuous output (up to 7200W surge) to handle refrigeration, lighting, router, and small appliances without . Check each product page for other buying options. Need help?

. Our 2KW and 3KW all-in-one solar generator systems are your go-to power solution. Featuring a pure sine wave inverter charger, MPPT solar controller, and a robust lithium battery, these systems can charge from the sun, grid power, and generators. Whether you're off-grid, facing an outage, or going . Such systems typically comprise solar panels, a battery for energy storage, and an inverter to convert the stored direct current (DC) electricity into alternating current (AC) suitable for most household appliances. It's perfect for powering essential household appliances, reducing electricity bills, and lowering carbon footprints.
