

How much is the shipment volume of Longi photovoltaic panels

Overview

LONGi Green Energy Technology has reported cumulative external solar cell and module sales of 63.43 GW between January and September 2025. 48 GW of back contact (BC) modules, featuring the company's advanced Hybrid Passivated Back Contact (HPBC) 2. Longi says it shipped 17 GW of back-contact modules in 2024 and cut its net loss to CNY 8.18 billion), citing tighter inventory control, cost reductions, and higher investment returns. 96GW . A comprehensive analysis of global module shipments from 24 prominent Chinese solar module manufacturers reveals that shipments are projected to range from 600GW to 650GW, signifying a new zenith in the past decade. Chinese solar panel manufacturers swept the top rankings in 2025, with Jinko Solar and LONGi Green Energy sharing first place .

How much is the shipment volume of Longi photovoltaic panels

2024 Global PV Module Shipments: The Rise of the "F4" Giants

LONGi Green Energy followed in second place with 82.32 GW of shipments, while JA Solar ranked third with 79.447 GW. Trina Solar claimed the fourth spot with over 70 GW shipped.

Chinese Giants Dominate 2025 Module Shipment Rankings, But

Jinko Solar and LONGi ranked jointly in first place, each shipping between 80 and 90 GW - a figure that includes output from their respective U.S. manufacturing subsidiaries, Jinko Solar

[Half-year Report 2024: LONGi achieved revenues of EUR5.03 billion](#)

During the reporting period, the company generated revenues equivalent to 5.03 billion euros* (38.529 billion yuan), with a silicon wafer shipment of 44.44GW (21.96GW sold externally);

Chinese PV Industry Brief: Longi ships 17 GW of back-contact

Longi says it shipped 17 GW of back-contact modules in 2024 and cut its net loss to CNY 8.62 billion (\$1.18 billion), citing tighter inventory control, cost reductions, and higher investment

LONGi Shipped Over 63 GW Solar Cells & Modules In 9M 2025

LONGi Green Energy Technology has reported cumulative external solar cell and module sales of 63.43 GW between January and September 2025. The total includes 14.48 GW of back

Top PV module suppliers by shipment in H1 2025

LONGi, leveraging the advantages of its BC modules in the distributed market and its strong bidding capabilities, has seen an increase in market share, maintaining its second-place

Global Module Shipments of 20+ Major Chinese Solar Module

With an estimated annual global module shipment of 76GW to 80GW, LONGi is the PV giant and is ranked second on the list the first three quarters of 2024, LONGi shipped 51.23GW of

[LONGi ships 51GW modules in 9M 2024, financial losses continue](#)

So far this year, the company has shipped 82.80GW of silicon wafers and 51.23GW of modules. Despite the challenging market situation, LONGi's module shipments have increased

Half-year report 2024

LONGi has published its financial report for the first half of 2024. The integrated Chinese module manufacturer generated revenues of the equivalent of 5.03 billion euros in the period. One

2024 H1 Performance: LONGi Achieved a Revenue of 38.529 Billion

Faced with the continuous market changes in the photovoltaic industry, LONGi achieved a significant year-on-year increase of over 140% in sales volume in the Asia-Pacific region in the first
