

# Inner teeth of photovoltaic bracket

## Overview

---

The Protea Bracket fits most trapezoidal sheet profiles, including preassembled foam-core panels (IMPs - Insulated Metal Panels). Discover how photovoltaic tile brackets enable seamless solar integration for residential and commercial rooftops. This guide explores technical specifications, material innovations, and why proper mounting systems are critical for energy efficiency. Solar electric power can be made available continuously for consistent on-off grid applications. It is environmentally friendly as well.
