

# Is it illegal to install photovoltaic panels by the river

## Overview

---

Yes, most solar panel installations require permits. Whether you're installing rooftop panels or a ground-mounted system, local building departments typically require permits to ensure safety, code compliance, and proper grid connection. Off-grid solar is legal in California, and state law actually protects your right to install solar energy systems on your property. Most states have solar access laws that forbid any agreement, covenant, condition, bylaw, or contract that outlaws or limits solar installations by Homeowners Associations (HOA) or other municipal bodies. However, some states . Disclaimer: The materials included in this paper are intended for informational purposes only and not for the purpose of providing legal advice for any particular case or matter. Use of or reliance on this material does not create an attorney-client relationship between the Energy Policy . Like wind power, photovoltaic (PV) solar power has also been impacted by an increasing number of state and local ordinances that restrict where solar power may be deployed.

## Is it illegal to install photovoltaic panels by the river

---

### California's Solar Rights Act

Solar Electric Standards - Section 714(c)(3) requires a solar energy system used to produce electricity, such as photovoltaics, to meet all applicable safety and performance standards established by the
