

Malaysia solar power storage project

Overview

The World Bank will invest in a huge 4GW, 5. 12GWh solar-plus-storage complex in Malaysia, which will form part of a pan-Southeast Asian power grid initiative. The Southern Johor Renewable Energy Corridor (SJREC) will be a roughly 2,000sqKm area dedicated to solar PV and energy . The Southern Johor Renewable Energy Corridor (SJREC) forms part of a \$6 billion project developing a 2,000 kilometer-squared hybrid solar and battery energy storage system zone set to connect South East Asia. The first phase is planned to cover around 10,000 acres and include up to 4 GW of solar photovoltaic capacity combined with 5.
