

# Marking on the energy storage battery

## Marking on the energy storage battery

---

### Understanding the new EU Battery Regulation

Manufacturers will be required to affix the CE marking to batteries before placing them on the market or putting them into service, starting from August 18, 2024. The CE marking indicates

### EU Regulations for Battery Energy Storage Systems (BESS):

The latest EU Regulations for Battery Energy Storage Systems (BESS). Learn about compliance, CE marking, Battery Passport, EPR, and safety standards for 2026.

### New labeling and CE marking of batteries - Semmel S.R.L.

New Regulation EU 2023/1542 introduces all the necessary information that shall mark the batteries concerning their main characteristics, including their capacity and the amount of certain

### [One year on: EU Batteries Regulation and CE marking impacting energy](#)

The mandatory CE marking and the conformity assessment procedure have been in effect since 18 August, 2024. In order to be placed on the EU market, batteries must now carry a CE
