## Overview

---

The mini-grid sites are poised to be hubs of new and improved economic activities generating better employment opportunities and incomes, fostering greater social and economic welfare for communities, leading to developmental outcomes in health, education, women's empowerment . The mini-grid sites are poised to be hubs of new and improved economic activities generating better employment opportunities and incomes, fostering greater social and economic welfare for communities, leading to developmental outcomes in health, education, women's empowerment . Freetown, 5th June 2025: In a pivotal step towards national development and sustainable energy access, H. President Julius Maada Bio, President of Sierra Leone, officially launched the Salone Off-Grid Renewable Energy Acceleration (SOGREA) Initiative. Freetown, 21 October 2025: The Salone Off-Grid Renewable . SOGREA is partnering with the Government of Sierra Leone and the private sector to unlock new investments that will expand electricity access through green mini-grids, accelerating progress toward the country's universal energy access goals. However, this approach has yet to gain sufficient traction to make a substantial impact on energy poverty across the continent. The announcement was made on Oct.
