

Morocco solar incentives

The image shows a house with solar panels installed on its roof. In the foreground, there is a large, white, multi-bay battery storage unit. The unit has a digital display and control panel on the top bay. To the right of the battery unit, there are four circular icons with text descriptions:

- 
easy to install and use
- 
World wide Products
- 
faster charging and discharging
- 
Multiple protection with alarm systems

Can save energy

the battery capacity can be increased freely and flexibly according to the situation of home use.

Rechargeable lithium batteries use safe LiFePO4

Overview

Morocco has published the implementing decree for 'Law 82-21', officially enabling renewable energy self-consumption and surplus sales starting June 9, 2026. PV owners can now inject up to 20% of their annual production into the grid, earning up to MAD 0. This latest work of the Global Markets workstream of SolarPower Europe explores the numerous investment opportunities within Morocco's solar sector, highlighting the country's market dynamics, regulatory frameworks, as well as concrete recommendations to accelerate solar deployment. The report . The government launched the Moroccan Solar Plan in 2009, aiming to install 2,000 megawatts (MW) of solar capacity by 2020. This guide provides a comprehensive breakdown of the tax credits, exemptions, and legal incentives available for solar projects in Morocco as of 2026, ensuring . Lining up to invest: The solar sector in Morocco is growing and offers attractive opportunities, according to the report. SolarPower Europe, supported by the Global Solar Council (GSC) and the Moroccan renewables' association Cluster EnR, has published its first report on solar investment . Are there any government-funded or sponsored schemes for improving the energy efficiency of existing buildings and, broadly, how do they work?

There are several government-funded and sponsored schemes in Morocco for improving energy efficiency. These initiatives include the following: The Moroccan .
