

New OTC PV Performance Forecast Announced

Overview

In 2024, between 554 GWdc and 602 GWdc of PV were added globally, bringing the cumulative installed capacity to 2. The rest of the world was up 11% y/y. IT security firm Jakkaru has identified a vulnerability in microinverters from AP Systems that could enable a "kill switch" scenario, potentially shutting down tens of thousands of inverters simultaneously and disrupting grid operations. Greece's PPC Group has finished construction of its 2. defined as those that are typically 5 MW or less in nameplate capacity and are interconnected to the distribution system (typically 69 kV or below) according to state-jurisdictional interconnection standards. " . PASADENA, CA / ACCESS Newswire / September 2, 2025 / Green Rain Energy Holdings Inc. (OTC PINK:GREH) ("Green Rain" or the "Company"), a renewable energy development company, today announced that it is expanding its infrastructure and accelerating growth plans in California as investors commit . IEA PVPS has released its latest Trends in Photovoltaic Applications 2025 report, revealing that the world's cumulative installed PV capacity surpassed 2 260 GW by the end of 2024, marking a 29% year-on-year increase. 6, 2026 /PRNewswire/ -- Maxeon Solar Technologies, Ltd. (NASDAQ:MAXN) and Shanghai Aiko Solar Energy Co. New lawsuit filed in Munich, Germany claims Aiko and its European distributors infringe Maxeon's Back Contact solar technology IP SINGAPORE , Dec.

New OTC PV Performance Forecast Announced

Final 2025 Photovoltaic (PV) Forecast

The PV forecast is a projection of distributed PV resources to be used in ISO-NE System Planning studies, consistent with its role to ensure prudent planning assumptions for the bulk power

The Now Corp Launches GreenRainEnergy

The Now Corporation (OTC: NWPN) is committed to advancing clean energy solutions through its subsidiary, Green Rain Solar Inc. Green Rain Solar focuses on urban rooftop solar

Spring 2025 Solar Industry Update

Utility-scale PV (UPV) had its largest-ever market share of new capacity additions in 2024, but deployment of UPV is expected to slow down due to grid congestion, curtailment, and

The Now Corporation (OTC: NWPN) Sees Opportunities for

The Now Corporation (OTC PINK:NWPN), an emerging leader in solar energy and utility solutions, announces its strategic focus on expanding into the California community solar market.
