New energy storage requirements and standards

Energy Storage Safety Strategic Plan

The Department of Energy Office of Electricity Delivery and Energy Reliability Energy Storage Program would like to acknowledge the external advisory board that contributed to the topic identification,

Energy Storage Safety Codes, Standards, & Regulations (CSRs)

Section 1207 - Electrical Energy Storage Systems (ESS) Continued language alignment with NFPA 855 - Scope section of 1207 reads, "Material based on NFPA 855 2023 Ed."

San Jose Energy Storage System Standards: Compliance & Best

Discover how San Jose's updated energy storage regulations impact commercial projects and renewable energy integration. Learn why 83% of solar installers now prioritize UL 9540-certified

[Understanding Title 24 & Battery Storage: California's Building](#)

A comprehensive guide to California's Title 24 code with a focus on energy standards, BESS integration, and immersion cooling compliance.

[NFPA 855 \(2026 Edition\) - What's New](#)

California Title 24 Solar Requirements 2026: Residential

California's Title 24, Part 6 (Building Energy Efficiency Standards) mandates solar photovoltaic systems and battery storage for most new construction as of January 1, 2026. Here's

[California: new BESS regulations come in, SDG&E adding capacity to](#)

The California Public Utilities Commission (CPUC) has established new standards for the maintenance and operation of battery energy storage facilities within the state.

[for Battery Energy Storage](#)

The 2026 edition of NFPA 855: Standard for the Installation of Stationary Energy Storage Systems has now been released, continuing the rapid evolution of safety requirements for battery

Battery Energy Storage System Legislation in California

On November 13, 2025, Governor Newsom announced that the State has now built one-third of the energy storage capacity estimated to be needed by 2045 to meet California's clean energy goals, and

[Battery Storage in California Meets New Regulatory Hurdles: How](#)

Los Angeles County is amending its zoning code to add new development standards for battery energy storage projects, potentially creating a de

facto moratorium on new projects until the code update is

What s New for Single-Family Residential

Updates mandatory battery energy storage system (BESS) readiness for newly constructed single-family one or two dwelling units with electrical service over 125A.
