

Norwegian energy storage supercapacitor manufacturer

Overview

Beyonder delivers BePowered Battery cells and modules. Due to the qualities of our BePowered Cells, when stacked in a module, they provide a sustainable solution for energy storage to be used in markets such as grid and renewables, maritime, power backup, transportation and . A Norwegian startup with the aim to empowering the future of energy storage through revolutionary supercapacitor electrodes. Being an international leading research group for supercapacitors, we have developed electrodes that gives more than three times higher energy density in average than the . "The global supercapacitor market will reach \$5. 2 billion by 2028, with energy storage systems driving 34% of demand" - MarketsandMarkets Report 2023 1. Renewable Energy Integration Oslo's wind farms use supercapacitor modules to stabilize power output. A recent project with EK SOLAR demonstrated: . Gonvarri Material Handling is a prominent manufacturer of diverse storage solutions, highlighting its expertise in engineering industrial storage systems. The company's commitment to innovative storage machines and warehouse management systems (WMS) showcases its ability to address the evolving . Skeleton Technologies, the global technology leader in supercapacitor and SuperBattery energy storage, and Tinfos AS, owner and leading supplier of hydropower plants in Norway, have entered into a commercial agreement to provide Skeleton's energy storage solutions for the Norwegian market. 0% . Supercapacitors or ultracapacitors offer unique advantages like ultrafast charging, reliable operation spanning millions of duty cycles alongside wide operating temperatures and collaborative integration with batteries or fuel cells for energy storage applications. This drives adoption across .
