Stay on top of updates to receive specialu2028limited-time discount. Join Renogy's Facebook Community Group to chat all things off-grid . Most industrial off-grid solar power systems, such as those used in the oil & gas patch and in traffic control systems, use a battery or multiple batteries that need a place to live, sheltered from the elements and kept dry and secure. Once I got the plan set, it was easy to install. However, to take full advantage of this clean energy source, you'll need a control cabinet to manage the incoming and outgoing energy.
