

# Photovoltaic tracking brackets are in short supply

## Overview

---

The pandemic has disrupted global supply chains, leading to shortages in the availability of some components needed to manufacture photovoltaic tracking brackets. The global Photovoltaic Tracking Bracket Market market is starting at an estimated value of USD 6.05 Billion in 2026, on track to hit USD 16.75 billion by 2032, exhibiting a robust Compound Annual Growth Rate (CAGR) of . Photovoltaic (PV) tracking brackets play a crucial role in solar energy systems by optimizing the orientation of solar panels to maximize sunlight exposure throughout the day. 1% during the forecast period from 2024 to 2030. The Photovoltaic Tracking Bracket Market research report provides a detailed analysis of diverse segments across 6 regions and 25 countries including Type . The global Tracking Photovoltaic Bracket market is projected to grow from US\$ million in 2024 to US\$ million by 2031, at a CAGR of % (2025-2031), driven by critical product segments and diverse end-use applications, while evolving U.

## Photovoltaic tracking brackets are in short supply

---

### North America Photovoltaic Tracking Bracket Market Trends

The imposition of U.S. tariffs has significantly reshaped the competitive landscape and supply chain dynamics within the North America Photovoltaic Tracking Bracket Market.

### PV Tracking Bracket Market Trends , Report [2035]

More than 50 million PV tracking brackets were deployed globally by the end of 2023. The demand for single-axis PV tracking brackets has shown a surge of 38% year-over-year due to energy

### Photovoltaic Tracking Bracket Market Outlook

The pandemic has disrupted global supply chains, leading to shortages in the availability of some components needed to manufacture photovoltaic tracking brackets.

### [Photovoltaic Tracking Bracket Market Demand and Growth Insights 2024](#)

Key drivers propelling the photovoltaic tracking bracket market include the pursuit of higher solar energy yields, increased efficiency in solar power generation, and reducing the levelized cost of electricity

### [PV Tracking Bracket Market Share, Forecast, .](#)

### [Growth Analysis \[2033\]](#)

This Tracking Bracket is a rather complex part that is intended to help increase the effectiveness of photovoltaic (PV) solar panels by making them rotate during the day following the

### [Photovoltaic Tracking Bracket Market - Size, Share, Trends, Analysis](#)

The Photovoltaic Tracking Bracket market is poised for significant growth and innovation in the coming years, driven by increasing demand for solar energy, declining costs of photovoltaic technology, and

### [Photovoltaic Tracking Bracket Technology and Global Market Share](#)

This article elaborates on the technical principles, classification, and development trends of PV tracking brackets, while providing an in-depth analysis of the global market size, regional

### [Innovation Trends in PV Tracking Bracket: Market Outlook 2026-2034](#)

China leads the global PV tracking bracket market due to its massive solar installations, favorable government policies, and strong manufacturing base. Other key regions include the United

### [Photovoltaic Tracking Bracket Market Outlook 2026-2035 Report](#)

Globally, utility-scale solar projects account for over 65% of photovoltaic tracking bracket installations, driven by large ground-mounted solar farms. Single-axis tracking brackets

represent

[Global Tracking Photovoltaic Bracket Market Outlook, In-Depth](#)

This definitive report equips CEOs, marketing directors, and investors with a 360° view of the global Tracking Photovoltaic Bracket market, seamlessly integrating production capacity and sales
