

Power plant abandonment of wind

Overview

Rising costs, such as Italy's Monte Arci wind farm, have led to the decommissioning of over 86, 000 wind turbines in 45 states from 1981 to early 2024. Recycling wind turbine blades is particularly challenging due to the composite materials used. Researchers studying decommissioned wind and solar farms in Italy, Spain, Venezuela, and Argentina have found that weak regulations risk leaving more abandoned assets in their wake. Despite being referred to as "abandonment" in legislation, and more commonly "decommissioning" in conversations .
