

Protection level of solar battery cabinet pack

Overview

The IP rating (Ingress Protection) defines how well a battery pack enclosure resists dust, moisture, and water intrusion. When choosing a solar battery system, it's easy to focus on the big numbers: capacity, cycle life, or power output. However, there's another important detail that can significantly impact how your battery performs and lasts, especially in Australian conditions: the IP rating. Standard protection classifications for lithium battery applications include IP20, IP22, IP65, IP66, IP67, and IP68, each providing distinct . IP stands for Ingress Protection and describes to which extent dust and humidity can reach the inside of an electrical device.
