

Retail store energy storage serbia

Overview

With Serbia's largest shopping mall energy storage company leading the charge, commercial centers across Belgrade and Novi Sad are redefining energy management. Did you know?

A typical 100,000 sq. m mall consumes enough electricity daily to power 2,000 households. StorEnergy is the answer to reliable and eco-friendly energy storage. With our roots in Serbia and eyes on the world, our mission is to drive . Serbia can deploy at scale with dramatically lower capital costs than early movers faced, benefit from proven operational models nearby, align with fully established European balancing logic, and build storage into its system design strategically rather than experimentally.
