

Romania solar panels

Overview

Romania was a major player in the solar power industry, installing in the 1970s and 1980s around 800,000 m² (8,600,000 ft²) of low quality solar collectors that placed the country third worldwide in the total surface area of PV cells. One of the most important solar projects was the installation of a 30 kW solar panel on the roof of the that is capable of producing 60 MWh of electricity per year.

Romania solar panels

RPIA - Romanian Photovoltaic Industry Association

Romania has officially surpassed 5 GW of installed solar capacity, with growth evenly split between prosumers and utility-scale projects. In the last year alone, a record 1.7 GW was added-clear

Risesol Energy

Explore our expert solar panel installation, consultancy, and maintenance services tailored for your needs. We offer high-quality services, backed by managers and employees with over 15 years of

Romania installs 2.2 GW of solar in 2025

Romania added 2.2 GW of solar in 2025, according to figures from the Romanian Photovoltaic Industry Association (RPIA). The result marks a third consecutive year of growth in

[Panouri Fotovoltaice \(Solare\) , Cel Mai Mic Pret din RO , Altex](#)

- Panourile fotovoltaice transforma energia solara in electricitate fara a emite substante poluante sau a produce gaze cu efect de sera. Ele reprezinta o solutie ecologica si sustenabila pentru a reduce

Ses Romania

Ses Solar Systems provides expert solar panel installation in Romania. Save energy, reduce costs, and power your future with clean renewable energy.

Solar power in Romania

Romania is located in an area with a good solar potential of 210 sunny days per year and with an annual solar energy flux between 1,000 kWh /m² /year and 1,300 kWh/m² /year.
