

Rural truss photovoltaic panel installation price

Overview

With average installation costs of \$1.50 per watt after incentives, most agricultural solar systems achieve payback periods of 6-10 years. The actual price tag depends on your home's energy needs, roof characteristics, local incentives and other factors, all of which we'll break down in this guide. Most installers price systems according to their wattage. Solar panels cost about \$21,816 on average when purchased with cash or \$26,004 when purchased with a loan for a 7. While that price tag seems steep, the electricity bill savings you get from solar panels make them a worthwhile investment for most Americans. [How Much Money Can You Save Using Solar?](#)

On average, homeowners save approximately 20% on their power bill when they switch to solar power. NLR's PV cost benchmarking work uses a bottom-up . [Barn Solar Outperforms Residential: Agricultural solar installations cost 15-25% less per watt than residential systems due to simpler roof configurations, larger system sizes, and easier installation access.](#)
